

Avery Dennison®

MPI™ 1105 Wrapping Series

High Performance. Supreme 3D conformability. Stunning printability.

The ultimate wrapping solution - MPI™ 1105 Wrapping Series films bring new levels of image quality, 3D conformability and printability to vehicle wraps.

Outstanding colour 'pop' and an ability to cope easily with challenges such as rivets and corrugations make the MPI™ 1105 Wrapping Series the products of choice across many different applications.

MPI™ 1105 Easy Apply RS™ uses patented air egress technology to ensure the same application speed and convenience as Avery Dennison® Supreme Wrapping Film. That means endless creative possibilities for the most demanding private vehicle and commercial fleet wraps. MPI™ 1105 Speedmaster brings you fast and effortless application and stunning graphics on your vehicle with an excellent printability on all major digital platforms, it also offers an amazing visually smooth finish.

KEY FEATURES

- Easy Apply RS™ adhesive technology with air egress - offering repositionability and slideability

For optimal performance of the MPI™ 1105 Wrapping Series, use Avery Dennison Digital Overlaminates (DOL). More information: graphics.averydennison.eu/dol

“I am very impressed with the MPI™ 1105 Wrapping Series . The material really stretches into deep corrugations and can be repositioned several times. The Easy Apply RS™ adhesive technology is really one of the best in the market and copes perfectly. Ease of application and the smoothness of MPI™ 1105 Speedmaster are really excellent. Also the whiteness and print quality of the MPI™ 1105 Wrapping Series is at the highest level in digital print media.”
