

# ImagePerfect™ Surface Cleaner Pro

## Surface Cleaner

**IP Surface Cleaner Pro is a highly-engineered substrate cleaner that is extremely powerful and accurate. It allows for the cleaning of substrates prior to the application of self-adhesive materials and for the cleaning of print media prior to printing.**

IP Surface Cleaner Pro is a powerful cleaning option that allows for the professional preparation of surfaces. Although the product should always be tested prior to use on specific surfaces (such as certain plastic materials), it is suitable for use on even the most sensitive materials (such as foam boards, acrylics, etc), covering a broad range of end-user requirements - e.g. car bodies, signboxes, glass substrates, dry-wipe substrates, anodized aluminium, PVC banners, whiteboard films, etc. The product can also be used to remove small amounts of adhesive remains (for more stubborn adhesive remains, use IP Adhesive Remover). Simply spray the IP Surface Cleaner Pro onto the surface and remove the liquid using an IP Surface Cleaning Cloth. Do not use the cleaning cloth twice as this will negatively impact the end result and do not wait too long before wiping the surface. It is better to work fast, before the IP Surface Cleaner Pro has been allowed to dry. Despite being extremely effective, IP Surface Cleaner Pro does not contain hazardous materials and can be considered to be environmentally-friendly.

Specifications	
<b>Description</b>	Surface cleaner
<b>Ingredients</b>	No dangerous components
<b>Toxicity</b>	Non-toxic
<b>Storage</b>	Keep container tightly sealed and keep away from heat / Best below + 22°C
<b>Transport</b>	Not classified as Dangerous Goods
<b>Shelf Life</b>	1 year, 20°C / 50% humidity
